PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Proficient in GetX state management, REST API integration, and clean coding practices. Passionate about writing maintainable code and continuously learning modern mobile development standards.

TECHNICAL SKILLS

Mobile Development	Flutter, Dart
State Management	GetX
Architecture	Clean Architecture, MVVM (Basic)
API Integration	REST API (HTTP)
Backend	Firebase, Supabase (Basic)
Local Storage	Shared Preferences
Tools	Git, GitHub, Postman
Office Tools	Microsoft Office (Word, Excel)

WORK EXPERIENCE

SM Technology (BD Calling – Branch)

Dhaka, Bangladesh

Junior Flutter Developer

Present

- Developed responsive UI screens and application features using Flutter.
- Implemented GetX for state management and REST API integration.
- Fixed bugs, optimized app performance, and maintained clean architecture.
- Collaborated with team members using Git and GitHub.

PROJECTS

- Math Genius App** – A Flutter-based educational application with quizzes, interactive exercises, and responsive UI designed to improve children's mathematical and logical skills.
- Online Learning Platform** – A Flutter learning application for children featuring lessons, progress tracking, AI-assisted recommendations, REST API integration, and GetX state management.
- AI CV Job Matcher** – An AI-powered recruitment system that analyzes CVs and job descriptions using NLP techniques to generate intelligent skill matching and candidate scores.
- Live Healthcare** – A healthcare communication platform offering real-time video calling, audio calling, live streaming, and instant messaging between patients and healthcare professionals.
- Meditation App** – A Flutter-based wellness application providing guided meditation sessions, relaxing music, breathing exercises, and a clean, modern user interface.
- Service Hub App** – A salon and beauty service booking application built with Flutter, enabling users to book appointments, discover services, and manage reservations with GetX and REST APIs.
